

Winter Series

First Day
Thursday, December 10
8 am —3 pm

2nd Day
Friday, December 11
8 am—noon

at 1000 Apollo Way,
Classroom
Santa Rosa

Instructor:
Eric Peterson
Owner/Instructor
for Mill Creek Safety,
Certified OSHA Trainer

10-Hour OSHA for Construction

The OSHA 10-Hour Outreach program is designed to provide participants with basic safety knowledge about common risks on construction jobsites. Each one-hour segment covers information essential to accident prevention and OSHA compliance. Topics covered in this 10-hour course may include:

- | | | |
|-------------------------------|--------------------|--------------|
| Introduction to OSHA | Electrical Safety | Crane Safety |
| Fall Protection | Ladders and Stairs | Excavation |
| Hazard Communication | Fire Protection | Tool Safety |
| Personal Protection Equipment | Confined Space | Scaffolds |

This would be a great course for Supervisors, Foremen, Superintendents, Safety Coordinators, Safety Trainers, and Owners/Officers. Did you know that some large General Contractors are requiring subcontractors to have personnel onsite that have a 10-hour OSHA completion card?

First Day—Thursday, December 10, 8 am—3-pm
Second Day—Friday, December 11, 8 am—noon

\$150 ECA members • \$185 Non-members
