Hazwoper 8 Hour (Refresher)

This course meets OSHA 29 CFR 1910.120 requirements for eight hours of annual refresher training workers at hazardous waste sites. This course is designed for general site workers who remove hazardous waste or who are exposed or potentially exposed to hazardous substances or health hazards. Topics include HAZWOPER regulations, safety and health plans, hazardous chemicals, safety hazards, air monitoring, medical surveillance, site control, decontamination, personal protective equipment, and respiratory equipment.
